

BLUSH

BLUSH

I N T E R N A T I O N A L

Blush International would like to share with you
the show apartments we have designed for
Al Barari and Hameni for Zaya.

Blush Arabia are now showcasing their interiors for the first time here
in the Middle East and are honored to be collaborating
with such prestigious developers.

We would also like to share our knowledge and expertise with you,
the home owner, to create interiors that are tailor-made
and easily realised but without the high-end price tag.

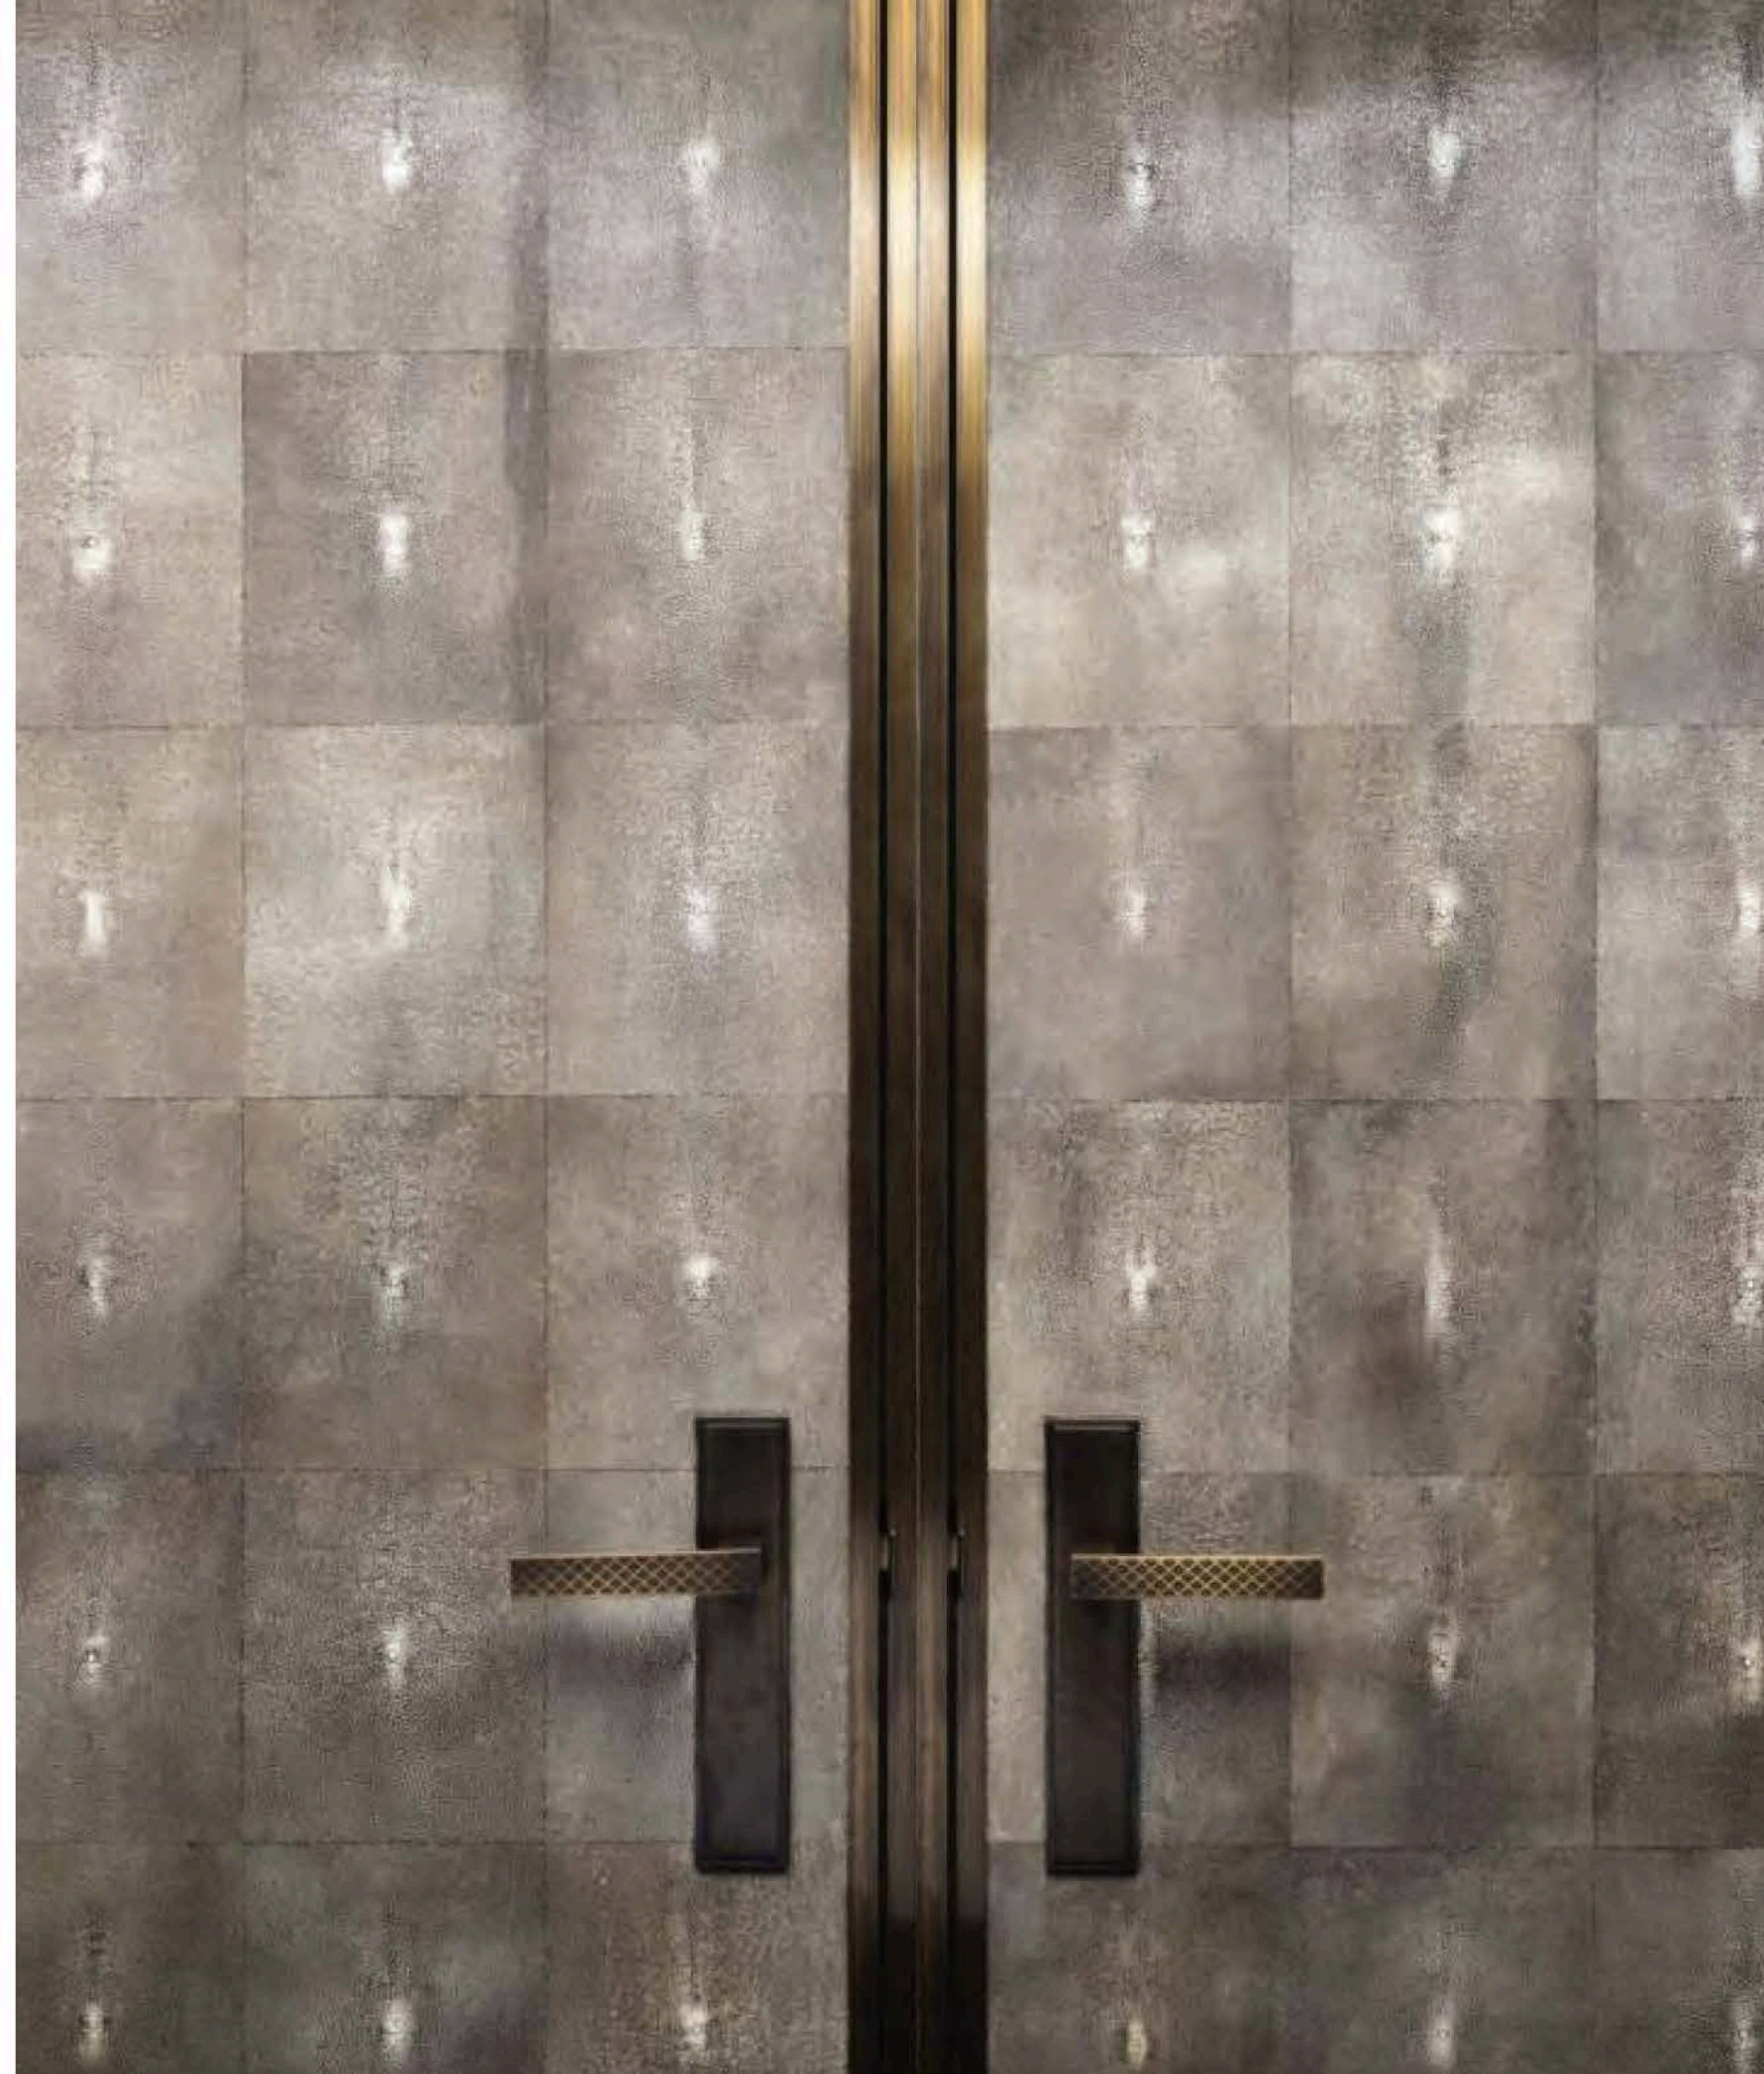

We understand how busy life can get and also
how difficult it can be moving from one country to another.
So let us take away the stress and pressure of decorating and designing your home.
Our expertise allows us to realize your living space with ease
and a peace of mind that is simply priceless.

We hope you enjoy the apartments as much as we have enjoyed designing them and
that they give you an insight into exactly what we are capable of delivering to you.

BLUSH LONDON

Creating a new standard in luxury Design

Blush was established in London in 2007 by Kate Instone. Since then Kate and her team have created some of the most elegant and sophisticated interiors for private residences, hotels, palaces, super yachts and private jets around the world. With our expertise we ensure that every element of design, aesthetic and function fuse together to not only realize a dream space but surpass it.

BLUSH ARABIA

Style and elegance in Al Barari & Zaya

After moving to Dubai, Kate realised there was a gap in the market for truly unique design at an affordable price level. And it is this idea and ethos that is behind the Al Barari and Zaya residences. Al Barari has already set the standard for luxury living and now with Blush Arabia this can be realized in their new development, Zaya.

STYLE & ELEGANCE

A collaboration between Kate Instone & Caroline Stanbury

When Kate and Caroline met in London all those years ago they never imagined they would be working together in Dubai. But now, having both moved here recently, their collaboration of style and elegance is the perfect combination for discerning property developers and owners. With Kate's award winning interiors team and Caroline's extensive background in personal styling, they have worked seamlessly to create Blush's new 'fashion forward' diffusion brand for Dubai.

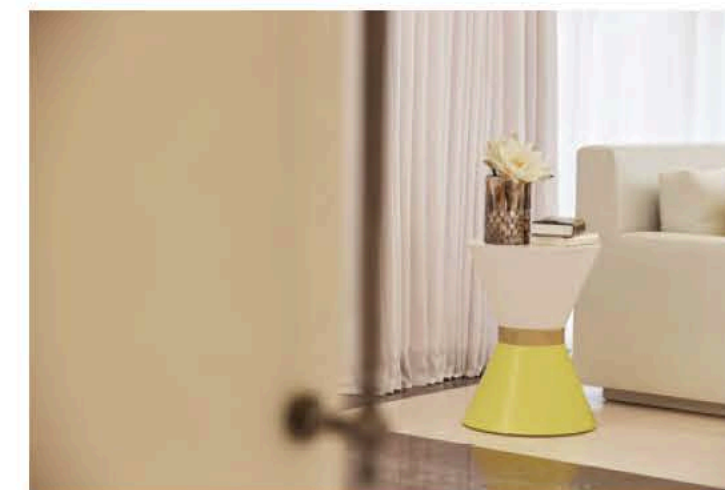

BOLD & MAJESTIC

Living spaces that fuse bold statement pieces with soft palettes and

Every home needs enough space to move and live the life that you desire. Personal space is our absolute priority when it comes to designing and decorating and with your input anything is possible.

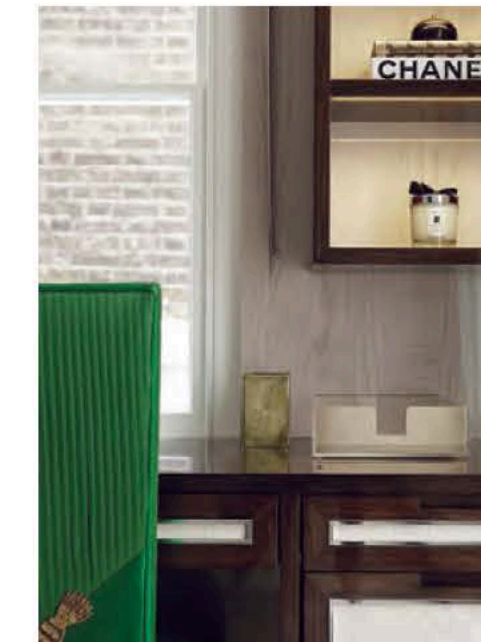

CALM & INSPIRING

Personal spaces that let you breath and

Call it your personal retreat, your library or your office space. These precious spaces must allow you to disappear into a world of your own.

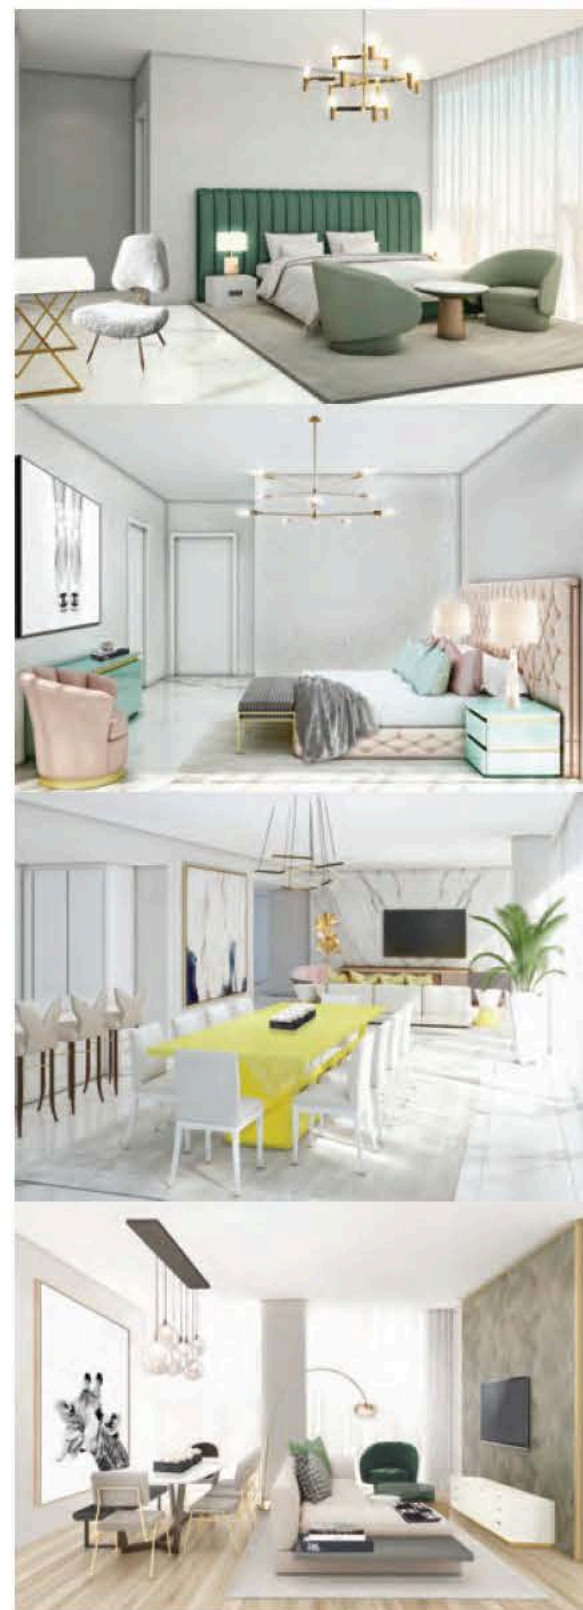

REFINED & LUXURIOUS

Bedrooms & dressing rooms that compliment each other and give you a sense of

The bedroom. The place you want to be when all around becomes chaotic and stressful. The only room in the house that is truly yours and yours alone.

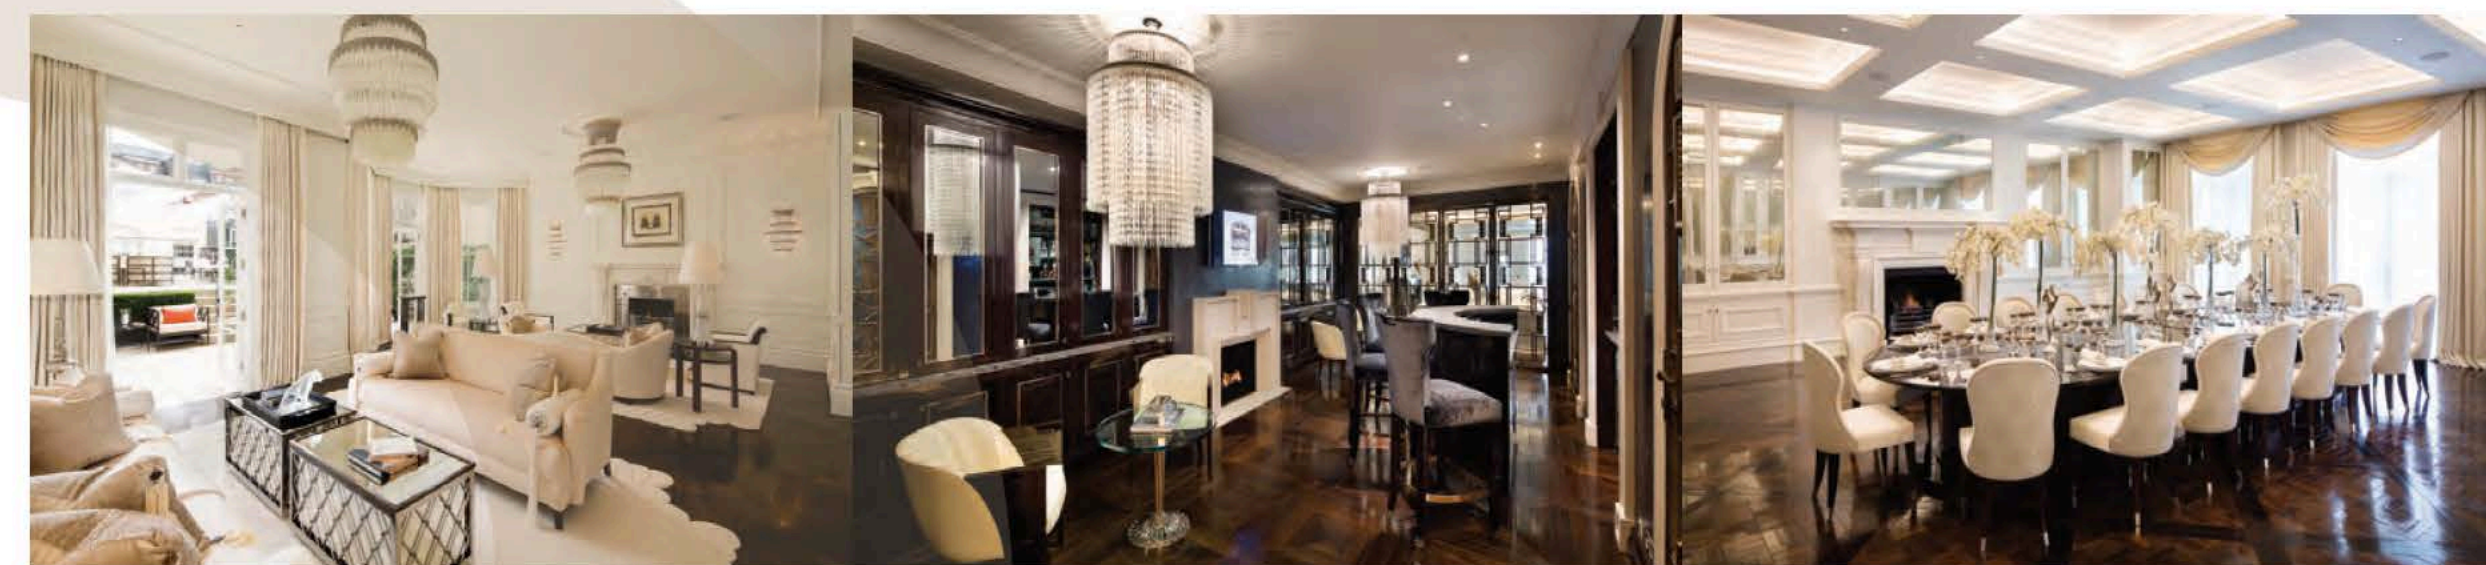

PROPOSED SHOWFLAT INTERIORS

Blush Arabia are delighted to share their proposed Al Barari show apartment interiors with you.

40
UPPER
BROOK
STREET
LONDON
W1

This project was completed in partnership with one of London's premier property developers and reviewed by the magazine Architectural Digest, being hailed as one of London's most outstanding interiors. We curated the art collections, sourced original art deco furniture from Paris and commissioned a Hermes chandelier. The finishing touch was adding a personal collection of Birkin handbags to be sold with the property.
